

Dashboard Insights Report

Executive Summary

The dashboard provides an executive view of Tata Motors sales performance using interactive KPIs and visual analytics.

Key KPIs

Total Revenue: ₹5,973.3M; Total Vehicles Sold: 4,916; Total Customers: 599; Average Selling Price: ₹1.2M; Average Discount: ₹40K; Total Discount Given: ₹197M.

Revenue Trend

Revenue increased through the year with notable peaks around March and October before declining in December, indicating seasonal demand fluctuations.

Product Performance

Curvv EV and Safari are the highest revenue-generating models, while Altroz and Punch rank among the highest-volume sellers, indicating a mix of premium and volume-driven products.

Regional Performance

Delhi generated the highest revenue followed by Hyderabad and Mumbai, highlighting strong regional markets.

Customer Behaviour

Loan financing accounts for approximately 64% of purchases, while Petrol vehicles dominate fuel preference with roughly 62% of sales.

Recommendations

Focus marketing on high-performing cities, strengthen financing partnerships, monitor premium model demand, and investigate strategies to improve lower-performing models.
